4301.H Government Select Custom PROs

West's Government Select Custom PRO product was built for our government customers and offers them the flexibility to build a legal information solution tailored to their unique needs. Government Select allows customers to select the content that not only fits their needs, but also their budget. Customers are not required to purchase a broad all-inclusive plan. They do not pay for any content they do not select and have the opportunity to continually grow their plan as their needs change. This Custom PRO product also gives customers access to all the powerful tools of Westlaw including, StatutesPlus, KeyCite and WestClip.

A Government Select plan requires a customer to include certain core content and then allows the customer to supplement the core content with optional modules tailored to meet the customer's needs and budget. Pricing is established by the point value assigned to the optional module content, number of users in the agency or firm and pricing level of the state content. The attached retail rates may be locked in for one year or multiple years.

Customers will have access to select databases included in the particular plan they choose. A government customer structuring a Government Select plan will have access to one of the following three core database groupings. The customer will then customize their Westlaw Government Select plan according to their particular needs and budget by including optional add-on content modules.

Single State Caselaw	Federal Cases	All State Statutes
Single State Statutes and Constitution	USCA	All State Administrative Codes

- Effectively manage all of the transcripts and related evidence in a case
- Run sophisticated full-text searches across all transcripts in a case to quickly retrieve the most critical testimony
- Annotate and analyze all the transcripts
