

Thomson Reuters eReader for Legal Professionals

THOMSON REUTERS

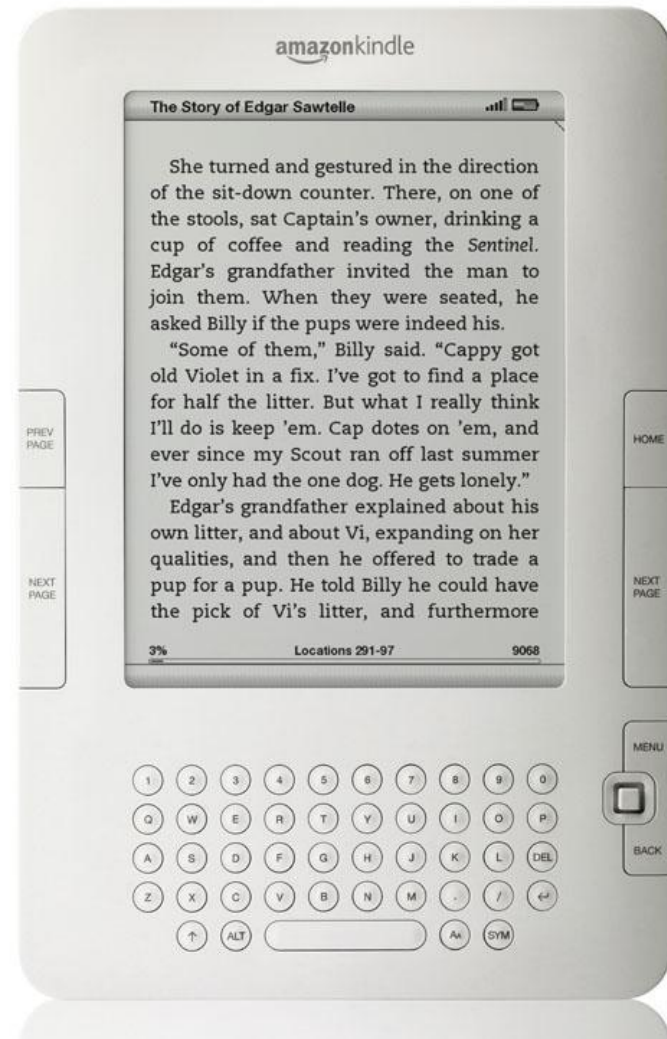

eReader Market

Dynamic landscape of devices, OS's, and applications, is impacting people's work habits and expectations

Customer Input on Kindle with Legal Books

- Kindle pilot completed in 2010
- Tested pre-loaded Kindles with over 100 end-users for a three month window
- Court rules and books suited for linear reading worked best
- Users wanted more functionality than Kindle provides
- We need another option for reference content

What is Thomson Reuters ProView?

Professional-grade features sets ProView Apart

THOMSON REUTERS PROVIEW™

ProView Advantage

With ProView, you can:

- Highlight text onscreen, annotate important passages with your own comments, and add bookmarks for quick reference – and then transfer them to updated editions
- Access content from our free iPad® app or directly from your browser
- Link from the table of contents or index to the appropriate sections
- Link to WestlawNext

Features (November Launch)

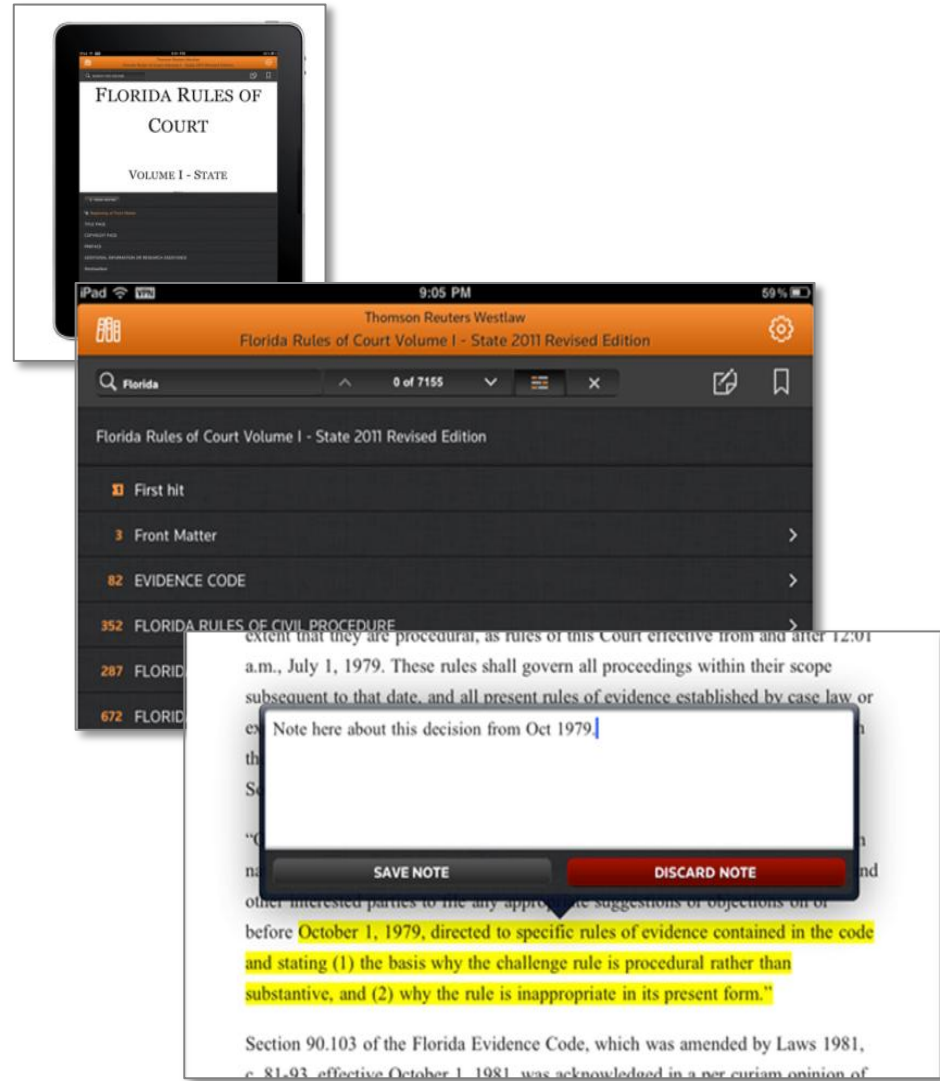

- Highlights, notes, and bookmarks
- Automatically transfer highlights and notes to updated editions
- Search ebooks and Table of Contents links
- iPad (offline access) and Browser platforms
 - Link to WestlawNext with seamless authentication

Features (July 2012 Expansion)

- Keycite support for WestlawNext customers
 - Library management tool
 - Search across ebook collection
 - eStore “Look Inside” previews
- Windows/Android platform support

Thomson Reuters: Our Approach

- Build a solution for reference reading
- Understand user needs (market research)
- Product enhancements tailored to professional content consumption
- Integration with WestlawNext

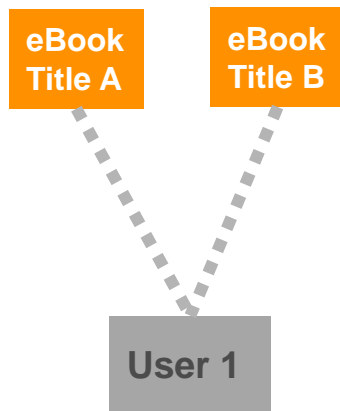

eBook Business Model Overview

Business models will be brought to market individually over the next several releases of eBooks

Single-User eBooks

We sell eBook titles to users for their individual use

Nov 2011

Library eBooks

We sell eBook titles to libraries for users to check in and out

* Concurrent access to titles by multiple users to be discussed

Q3 - 2012

Ordering and Accessing Thomson Reuters ProView eBook Titles

1. Place the Order

- Place a ProView eBook order with preferred TR representative
- Customer will be asked to provide the first/last name and e-mail address for each eBook user.

2. Customers will receive an **Order Confirmation Email**

- Once the order is placed, customer will receive an order confirmation email to let them know that the order is being processed.

3. Customers will then receive an **Activation Email** with Next Steps

- If the customer provided an e-mail address for each ProView user, these users will receive an email with access instructions within 2-4 hours.
- If the customer ordered copies for others and did not provide their e-mail addresses, access instructions for these users will be sent to the contact person for distribution.

Ordering and Accessing Thomson Reuters ProView eBook Titles

4. ProView User(s) Link from Email to OnePass

- The user can quickly link from the email to OnePass to assign their eBook library to their existing OnePass account or create a new one OnePass if one doesn't already exist.

5. ProView User(s) Link to iTunes to Download the ProView App

- The user can quickly and easily link from the email to iTunes to download the Thomson Reuters ProView app.

4. ProView User Logs In to the ProView App

- As soon as the ProView app is downloaded and opened, users will be initially asked to log in using OnePass. Credentials will be saved for future use and subsequent sign in should not be needed.

5. Users Can Access Their Library

- Once logged into ProView, users will have instant access to their eBook library content.
- If there are any questions, customers can contact Customer and Technical Support at 1-800-WESTLAW. There is also support information at thomsonreuters.com/proview.
