WESTLAW ROUND TABLE GROUP

Expert Witness Search and Referral Services

EXPERT WITNESS REFERRAL

Westlaw® Round Table Group® uses rigorous methodologies, relationships with numerous niche consulting firms, and proprietary databases – including our famed network of 100,000 expert witnesses – to find unbiased, unconflicted expert witnesses and consultants in even the most specialized fields.

WESTLAW ROUND TABLE GROUP INTRO

Finding the right expert witness is too important to be left to chance

You know that expert witnesses can be crucial to your success in many cases. Yet, like many other good litigators, you may search for expert witnesses using processes – internal emails, quick Internet searches, client referrals, and so forth – that lack the rigor you would typically apply to other critical aspects of your case.

Having found that such methods fall short, hundreds of attorneys and law firms routinely ask Westlaw Round Table Group to conduct expert-witness searches for them.

Westlaw Round Table Group's highly trained professional staff will conduct an exhaustive caselaw, literature, public, and private database search based on your expert-witness needs.

After we've finished our rigorous search – and you've conducted in-depth interviews with the experts on our short list – you'll feel confident that you've conducted a thorough, rigorous search and found the right expert witness for your case.

Best of all, there's no charge for our searches unless you retain an expert witness we refer to you. So you can add all our expertise, experience, and resources to your litigation team at no cost – unless we find the expert witness that you need.
